We have a very clear mission here at Barcelona Zoo: **to play an active role in conserving, researching and disseminating the planet's biodiversity.**

Barcelona Zoo, a place for animal welfare

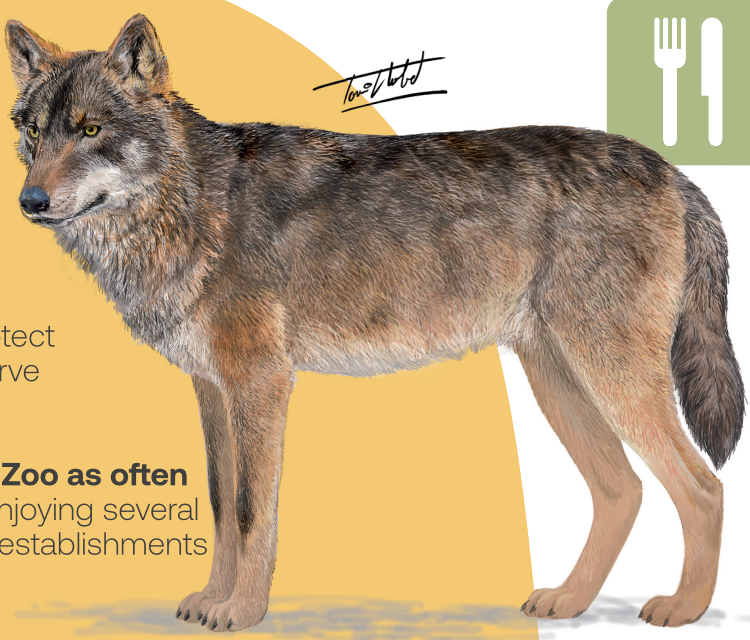

You will need to take the following rules into account when you visit us. That way we all can guarantee, between us, the well-being of the animals living in Barcelona Zoo.

- They like peace and quiet in their space. So, **try and visit them in silence**, without drawing attention to yourselves.
- **You are not allowed to feed the animals**, as they all follow a balanced diet adapted to ensure their well-being, **so any other food would be bad for their health.**
- **You are not allowed to go past safety barriers in our facilities**; the animals do not like receiving unexpected visits and may pose a danger to you.
- **You are not allowed to take flash photos**, especially in the case of animals living in a space with little light.

Annual Zoo Club pass

Join Zoo Club and you'll help us to protect many endangered species and preserve biodiversity.

In addition, **you'll be able to visit the Zoo as often as you like for one year**, as well as enjoying several advantages inside the Zoo and other establishments in the city.

Try a taste of the new Zoo!

Food that looks after people and nature. Great food with something to suit everyone!
